

Job Reference : Python Full Stack Developer

I have a total of 10 months experience in Python, which include 4 month work experience as Software Developer Trainee, at Doctosmart Edtech, Calicut. I am also experienced in handling databases like MySQL, PostgreSQL, Sqlite3. I am excited to bring my skills to Gaude Business Solutions pvt ltd as Python Full Stack Developer.

During my tenure as a Software Developer Trainee at Doctosmart Edtech, I had the opportunity work alongside senior software developers, and to assist the team in developing a CRM project. This experience allowed me to work on both front end and backend, further refining my skills in full-stack development.

I am confident on my background in Python Django developing, and I am eager to bring my expertise and enthusiasm to Gaude Business Solutions, and contribute to your innovative projects. I have attached my resume with more information about my education and experience. Please feel free to contact. I look forward to the possibility of discussing how my background, skills, and certifications will be beneficial to your team.

Yours sincerely,

Abhay B S
